## **DETAILED ACTION**

### ***Status of Claims***

1. Claims 1-36 are cancelled. Claims 37-68 are pending.

### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 37-64, drawn to an adjuvant composition.

Group II, claim(s) 65-67, drawn to a method of treating a mammal suffering from or susceptible to a pathogenic infection, cancer, or allergy.

Group III, claim(s) 68, drawn to a process for making a vaccine composition.

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The corresponding technical feature of the inventions listed as Groups I-III is an adjuvant composition comprising (a) polyoxyethylene alkyl ether or ester and (b) at least one additional non-ionic surfactant. This corresponding technical feature does not provide a contribution over the prior art, see Modi et al. Modi et al. teaches an adjuvant composition comprising (a) polyoxyethylene alkyl ether or ester and (b) at least one additional non-ionic surfactant. Ergo, the corresponding technical feature is not a special technical

feature. In the absence of a special technical feature, the inventions listed as Groups I-III lacks unity with one another.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
